

Technical	Advanced Fuel System
Product	Treatment & Stabilizer
Information	

PRODUCT DESCRIPTION AND FEATURES

PurePower! Advanced Fuel System Treatment & Stabilizer is a highly concentrated all season formula designed to meet the demanding needs of gasoline and diesel powered vehicles. This product has been specifically formulated to be compatible with all blends of gasoline as well as high and low sulphur diesel fuels.

PRODUCT BENEFITS

- Stabilizes fuel radicals.
- Removes deposits and cleans intake valves.
- Provides rust and corrosion protection.
- Boosts performance, drivability, and fuel economy.
- Cleans port fuel injectors and carburetors.
- Reduces exhaust emissions.
- Lubricates fuel system.
- Minimizes gasoline engine knock.
- Increases horsepower.

PRODUCT APPLICATION

- Domestic and foreign automotive vehicles.
- Gasoline and light duty diesel vehicles.
- Motorcycles, outboard motors, snowmobiles and watercraft.
- One bottle treats up to 30 gallons of fuel.
- Treat every third to fourth tank of fuel for optimum performance.
